

Financial Controller

As a Financial Controller, you will play a key role in supporting and optimizing financial operations, with a focus on financial controlling, accounting, consolidation, and treasury functions.

Your responsibilities

Financial controlling

- Prepare accurate, timely financial statements (statutory and consolidated) for the Belgian/Group entities, including income statements, balance sheets, and cash flow statements.
- Lead intercompany reconciliations at Group level.
- Take charge of accounts receivable (AR) reporting and follow-up.
- Contribute to month-end closing processes.
- Monitor cash flow and budget variances, proactively identifying opportunities for improvement.
- Liaise with banks and financial institutions for e.g. KYC processes, timely repayments,.
- Collaborate on the implementation of internal controls to protect company assets and reduce risk (e.g., bank authorizations, approvals).
- Actively participate in ad-hoc projects as needed

Your profile

- Master's degree in Finance, Accounting, or a related field.
- Relevant experience in Big-4 audit, consulting, or the industry.
- Strong attention to detail with a passion for numbers and a solid understanding of financial concepts.
- IT-savvy, proficient in Excel, SAP knowledge is a plus.
- Excellent communication and presentation skills
- Proficient in Dutch and English; knowledge of German or French is an advantage.
- Strong problem-solving abilities and process-oriented thinking.
- Practical, hands-on approach with a down-to-earth attitude.

What we offer

- An autonomous position with a broad range of responsibilities within an internationally strong-growing and dynamic company with an excellent reputation and a strong brand.
